## Is the Discussion Profitable?

To THE EDITOR OF THE SUN-Sir. Though by the personal favor of divine faith I firmly believe in man's immor-tailty from the very nature of the gift I am unable to make use of it in argu-mentation to convince another. There-Much as I admire Mr. Hornaday for establishing an alibi for the much maniging monkey house and for administering such a well merited rebuke to the jackals, I beg to disagree with him when he says that "the living animals in them [meaning monkey houses] are them [meaning monkey houses] are especially attractive to visitors." Until the monkey house developed an odor that was too much for my sense of smell if requently visited the place and discovered that the only thing they were aitractive to was about fifty-seven varieties of insects.

Much as I admire Mr. Hornaday for the caterpillar. But it is not a question of a question of edges of the caterpillar. But it is not a question of a question of the much manigum on key house and for administering such a well merited rebuke to the fact and subtion to convince another. There is nothing the mentation to convince another. There is nothing to common sense with Rene Bache. Common sense is nothing to reason dest the wake of the caterpillars. Nature is quite capable of inventing something wholly different for us.

Something may survive the transformation to convince another. There is nothing to common sense with Rene Bache. Common sense is nothing to reason dest the wake of the caterpillars, not the mentation to convince another. There is not indignities from caterpillars, mosquitoes and the like?

I am unable to make use of it in argumentation to convince another. There is not indignities from caterpillars, mosquitoes and the like?

It will be hard for me to separate mon reason. The appeal to common sense is nothing to reason dest that it is low hung convertible cars dens, its low

how existing matter can cease to exist.

Now if mind or soul or spirit or whatever we must call the vital principle in a human being be not distinct from matter it is scientifically immortal.

If mind is distinct from matter how can it dissolve into elements when it is not composite? If death has any meaning the matter has a matter hand. A person's patience can go just so far and then something is bound to happen.

All winter long I have awaited the time when the weather would be appropriate for the opening of my windows. It was torture for me caged in this little flat of mine, but the weather was not propriate for the opening of my windows. at all it means separation of united was not propitious for me to throw parts, dissolution. Ceasing to be is more difficult to understand than comton to enter. ing into being. Science has no knowledge of annihilation. To science edge of annihilation. To science until the warm weather comes, and then energy and matter are equally everlast-CAROLINE PEMBERTON.

MONTEOSE, Pa., July 8.

The Nature of Time.

To the Editor of The Sun—Sir: Several Sun spots have of late been beforging fundamental philosophical terms like time and immortality, yet such subjects are plain enough even to the semi-professional philosopher unless he has professional philosopher unless he has
